

WHAT IS CLAIMED IS:

1. A pet litter collection bag and spatula comprising:
a flexible walled bag having a first internal compartment, said bag having an inner end and an outer end, said
5 outer end being open forming an access opening;
a spatula having a front surface and a rear surface, a graspable handle attached to said rear surface, said front surface being formed in a scooping edge, said spatula having a top surface, said spatula being formed of a bendable material, said
10 spatula being mounted to said inner end of said bag with said front surface located exteriorly of said bag and said rear surface being located within said first internal compartment; and
whereby a user's hand and arm is to be inserted through said access opening with the user's hand grasping said graspable
15 handle and then maneuvering said spatula to cause pet litter to be located on said top surface, then the user reverses the position of said bag locating said spatula and the pet litter within a newly formed second internal compartment of the bag eliminating said first internal compartment.

2. The pet litter collection bag and spatula as defined in Claim 1 wherein:

a pair of handles being mounted on said bag, said handles being located at said outer end, whereby said handles are capable of being tied together after pet litter has been collected and contained within said bag.

3. The pet litter collection bag and spatula as defined in Claim 1 wherein:

said top surface being roughened, said roughened top surface facilitating the retention of pet litter on said top surface after such has been collected.

4. The pet litter collection bag and spatula as defined in Claim 1 wherein:

said spatula being formed of a thin, foam plastic material.

5. The pet litter collection bag and spatula as defined in Claim 1 wherein:

said scooping edge being scalloped which facilitates the picking up of the pet litter.

6. The pet litter collection bag and spatula as defined in Claim 1 wherein:

said spatula also functioning to close said inner end of said bag.

5 7. The pet litter collection bag and spatula as defined in Claim 6 wherein:

a pair of handles being mounted on said bag, said handles being located at said outer end, whereby said handles are capable of being tied together after pet litter has been collected
10 and contained within said bag.

8. The pet litter collection bag and spatula as defined in Claim 7 wherein:

said top surface being roughened, said roughened top surface facilitating the retention of pet litter on said top
15 surface after such has been collected.

9. The pet litter collection bag and spatula as defined in Claim 8 wherein:

said spatula being formed of a thin, foam plastic material.

10. The pet litter collection bag and spatula as defined in Claim 9 wherein:

said scooping edge being scalloped which facilitates the picking up of the pet litter.

5 11. The pet littler collection bag and spatula and defined in Claim 10 wherein:

said spatula also functioning to close said inner end of said bag.
